

## OUR SIX-STEP APPROACH INCORPORATES THESE STEPS:

**Step 1:** Conduct sustainability strategy audit to find your baseline

**Step 2:** Define your SMART goals and KPIs

**Step 3:** Implement your new sustainability strategy and engage for measurable results

**Step 4:** Analyze data-driven results to measure your real time insights

**Step 5:** Introduce you to valuable connections and incentives to propel business goals

**Step 6:** Craft your message across multiple channels to connect with the right stakeholders and get recognized for your achievements
